

Professional Advisers to Rural Business and on the Environment

HEARINGS, COURT & INQUIRIES ONLINE TRAINING WEDNESDAY 3RD SEPTEMBER 2020

BIAC is running an online training session on giving expert evidence. The session will be of benefit to those giving evidence at Court, Arbitration or Public Inquiry, as well as at Hearings or round-table sessions. Therefore it will be of use to those in civil and planning appeal cases.

The course aims to cover the rules for, and the duties and roles of, the expert, and then to provide practical and topical advice for those potentially giving evidence, including in the Covid-19 “virtual age”.

The session will draw on expertise from a barrister and professionals, including those who have already taken part in digital Hearings / Inquiries.
